

PASSWORD DATABASE

<http://www.phenoelit.de/dpl/dpl.html>

The Default Accounts Database is a collection of accounts and passwords that are, by default, the initial passwords for specific accounts on a given computer system. Sometimes these passwords are installed out-of-box, sometimes they are automatically installed by software, and sometimes they are installed by consultants that are brought in to perform services. This list should be used as a resource for computer security consultants interested in testing the security configuration of equipment.

Credits toward collecting these default passwords go to the Security Focus VULN-DEV mailing list, and specifically to contributors such as Eric Knight, Roelof Temmingh, Nathan Einwechter, George Kurtz, Stephen Friedl, Sebastian Andersson, Jonathan Leto, Mike Blomgren, Knud Erik H0jgaard, mobileunit@mobileunit.org, Axel Dunkel, Mathias Bogaert, Jonatan Leto, Chris Owen, Jim Wildman, Santiago Zapata, Brian S. DuRoss, M J, Will Spencer, Kevin Reynolds, Max Vision, Bluefish, Runar Jensen, Ex Machina, Matt van Amsterdam, Daniel Monjar, Neigo Bardosa, Damir Rajnovic, Master Dogen, FX, suid@suid.kg, Max Vision, Lou Albano, Mike Ireton, Kurt Seifried, Travis Good, Rodrigo Bunny, Daniel Wischniewski, Ray Beaulieu, Adrian Dabrowski, Thor, Ralf Folkerts, Scott, Pedro Cavaca, Nathan Einwechter, ehjelmstad, Daniel Hutchison Dan Jones, Volker Tanger, Dru Nelson, Nicolas Gregoire and scores of others.

Additional credits to Bluefish.
